DETAILED ACTION

This action is responsive to applicants' amendment and response received June 8, 2006. Claims 1-4, 10-13, 16, 17, 19, and 27-33 are currently pending.

Election/Restrictions

1. Applicants' affirmation of the election of group II, claims 27-32, is acknowledged.

Claim Rejections - 35 USC § 102

All claim rejections set forth under 35 U.S.C. 102 in the previous office action are withdrawn in view of applicants' amendment and response.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 27-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Niemiec et al, US 6,858,202.

Niemiec et al teach a shampoo composition comprising 0.2% silicone quaternium-13 (a quaternized siloxane containing polysiloxane and polyquaternary ammonium moieties), 0.15% guar hydroxypropyl trimonium chloride, a mixture of anionic, nonionic, and zwitterionic surfactants, and water (col. 24, table 3). Suitable

Art Unit: 1751

additives of the invention include benefit agents and hair growth inhibiting agents, both of which may be a protease (col. 18, lines 7-34). Accordingly, it would have been obvious to one of ordinary skill in the art to include a protease in the shampoo of table 3 and so render obvious the claims at hand. With respect to claim 32, the examiner notes that when $d=0$ and $b=0$, any polysiloxane containing quaternary ammonium groups, and hence, silicone quaternium-8, will satisfy this cationic silicone polymer.

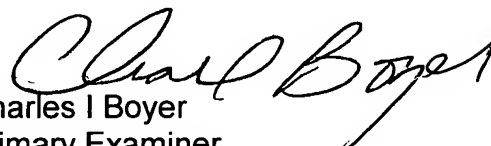

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
